

59. A computer-readable recording medium storing a program for managing a plurality of network devices, acquiring information from a selected network device of the plurality of network devices, and displaying the acquired information, the program comprising:

program code for a first display step of acquiring a first information of a selected network device and of displaying the first information on a device window; and

program code of a second display step of acquiring a second information of the selected network device from the selected network device and of displaying the second information on the device window when a user has requested display of the second information.--

REMARKS

Claims 1-59 are pending in the present application, with Claims 1-56 having been amended as to matters of form. New Claims 57-59 have been added to provide Applicants with a more complete scope of protection. Claims 1-6, 34-46, and 57-59 are in independent form.

A Request for Approval of Drawing Changes has been submitted herewith, in which certain typographical errors in the drawings are corrected.

Favorable consideration and early passage to issue of

this application is respectfully requested.

Applicants' undersigned attorney may be reached in our New York Office by telephone at (212) 218-2100. All correspondence should continue to be directed to our address listed below.

Respectfully submitted,

Attorney for Applicants
